PROFITMAKER - Inventory & Accounting Software used by over 20000+ Esteemed Customers, Since 1999.

"Trustworthiness and Technology" as our base.

Daxinsoft Technologies does more than just developing software. We help our clients to solve their business challenges. Daxinsoft brings a wide range of solutions: Desktop Applications, Mobile Apps, Web Applications, Proactive Maintenance and Support. We will design solutions in close co-operation with your team members. To meet your needs and expectations, dedicated teams are formed. We are strongly aligned with your business. We aim to make a measurable difference in our client's businesses by delivering expert and industry specific insight, accessible and proactive services and strong relationships built on trust. Daxinsoft has a "Call Center" located at Hyderabad operating through out the office hours with assistance in regional languages. Daxinsoft make sure to renew service contracts year after year, which makes the client association life long one, no risking their fear to search for software partners frequently. With a view to expand, diversify and introduce, with its presence in all over India.
